

- Monitoring reports from Brohm to the SD Department of Minerals and Mining Program, 1998
- Hydrologic results and reporting from Brohm to SD DENR for 1991, 1994, 1995, 1997, 1998
- 1993 Water quality analysis – quarterly basis – from Brohm to SD DWNR
- Bimonthly cyanide monitoring data from Brohm to SD DENR for 1992
- Monthly groundwater analysis from Brohm to SD DWNR for 1990
- Various air quality permits, air quality laboratory results, emissions information from Brohm (need to expand)

New Box #9

(From Original Box #54)

- Misc
- Water sampling (misc)
- Exploration permit – trench 1987
- Cultural sites
- Archaeological
- Archaeological cont.
- Archaeology
- Wells
- Twin City Testing Statement of Qualifications report
- Inter Mountain Laboratory report (2)
- Energy Laboratories report
- EnecoTech report (2)
- Wells GW 12.10 Travis Analysis
- Schedule work sampling
- Summary Draft to October 20 and Oct. 25 draft
- Spent Ore Testing
- Sampling to DWNR sampling
- Sampling prog
- Smith-Mark Vector
- Temperature
- Truhe (Marv, lawyer)
- Testing
- Vector – Glen Daily RPT Nov. 16-23
- Plan – approval DWNR
- Plans
- Piezometric Hyd H Well Points
- Pictures Core-Asphalt cutting cells, cell pad Oct. – Nov.
- Compliance Mon Ponds
- Neut Cell 7
- Neut Cell 6
- Neut Gen
- Leakage Response Action Plan
- Misc. Info Narrative
- Asphalt Repair

- Attenuation – Travis lab results
- Cross Section drawings
- Chemical data – leach pad data (pH, Cn, etc)
- Compliance analysis with Travis labs
- Cyanide destruction – graphs
- Events – Draft Summary. 1988. Cells 1,2, and 7 were being taken out of the leach cycle for repair
- Flow chart – reduction of Cn
- Fax DWNR – flow chart
- Flow data – sample results (in gpm)
- Graphics – transparency of flow diagram
- Graphs – charts of data
- Analysis – Travis lab results
- Company product information packets
- / - Blank forms
- Travis lab results
- USGS SD groundwater quality report
- Notebook from 1988 regarding meeting minutes
- USGS Water Resource Activities of South Dakota
- SD surface water resources
- Conference schedules
- Well sampling instrumentation product information
- Bond Gold – GWD permit
- Groundwater balance data
- 1988 Brohm – SDDWNR correspondence regarding GWD 3-88 permit
- EnecoTech – Preliminary Socioeconomic report dated 1988 for Brohm
- Groundwater field data
- Field data sheets - compliance order
- 1985 USGS Water resources cooperative plan
- SDDENR letter regarding Wharf

New Box #10

(From Original Box #69)

- Notebooks
- Medsystem log-sulfide
- Mintec Inc. folders and reports (1978)
- Medsystem user guide
- Mining Planning Operations

New Box #12

(From Original Box #22)

- Photos of retention ponds, ASTs, mechanical sheds, conduit to subsurface (well or UST port)
- Article by A. Smith – Considerations in the prediction and control of acid drainage impact from mining wastes on water resource utilization
- Empty folders
